WORK EXPERIENCE

Customer Service & Operations

July 2025 – September 2026

Pistachios Quality Meat and Groceries | London, ON

- Processed high-volume cash transactions and tracked inventory, maintaining zero end-of-shift financial discrepancies through accurate reconciliation.
- Collaborated with staff and management to resolve customer inquiries and improve inventory processes during peak hours.

Deputy Returning Officer (Contract)

April 2025 - April 2025

Elections Canada | London, ON

- Counted and numerically reconciled ballots, delivering accurate, quantitative results with close attention to detail under strict deadlines.
- Followed federal electoral procedures and compliance requirements to protect the integrity and security of the vote, working both independently and as part of a team.
- Communicated clearly with voters and polling station staff, guiding people through the voting process and keeping operations running smoothly.

Assistant Manager

February 2023 – March 2025

Hardware & Building Materials Supplier – Bekaa Steel | Lebanon

- Reconciled daily cash flows and audited inventory datasets in Excel for a high-volume materials supplier, identifying and reducing stock discrepancies.
- Analyzed hourly utilization data for heavy machinery rentals (Bobcats, JCBs) to verify billing accuracy and support asset management.
- Led and delegated daily tasks for staff in a fast-paced setting, meeting deadlines and resolving complex customer needs.

LEADERSHIP & INVOLVEMENT

Externals Manager, Lebanese Student Association (LSA), Western University

2025 – 2026

- Built and managed relationships with university stakeholders, sponsors and student organizations to deliver cultural programming and events.

Member, Actuarial and Statistical Undergraduate Association (ASUA), Western University

2026 – 2027

- Attend networking events, workshops and actuarial industry panels to build knowledge of the profession.

Attendee, Canada Life “Actuary for a Day”, London, ON

Sep 2026

- Met actuaries at the London head office and learned how pricing, valuation, reinsurance and enterprise risk management work in practice.
